

NEW Album (LP): 'Tennessee'

hey lover

Following the warm reception of their self-titled debut and many raucous shows both in the U.S. and Europe, Hey Lover spent the majority of 2011 recording and putting the final touches on their sophomore effort, a full-length album titled *Tennessee*. While maintaining the fun energy of their first album, *Tennessee* also contains more emotionally nuanced material reflecting the bands' growth as musicians and songwriters.

Since being voted as one of Portland's best new bands in 2007, Hey Lover has created a passionate and loyal following with their raw and energetic live performances: "...In a town (and national music scene) full of bands that want you to feel their pain, or acknowledge how clever they are, Hey Lover just fuckin' brings it."
- Jim Withington, Portland Mercury

Hey Lover is Terah Beth (drums/vocals) & Justin (guitar/vocals)
